

## Practical Tips for a Healthy Lunchbox

- ☺ Try to vary the contents of the lunchbox daily. That way you can ensure your child is getting the variety of nutrients their bodies need to function and grow.
- ☺ Involve your child in preparing their lunchbox. They are more likely to enjoy food they have made themselves.
- ☺ Wash your hands before handling food. Wash fruit and vegetables before use and put food in clean containers.
- ☺ If your child refuses to eat brown bread, try a lighter variety or make sandwiches using a slice of white and a slice of wholemeal bread.
- ☺ For variety, use pitta strips, crackers, bread sticks, or fruit and vegetable finger foods with a dip.
- ☺ Always try to add a little salad to a sandwich. To avoid soggy sandwiches, dry the salad before adding it to the sandwich or put it in a separate sandwich bag or tub.
- ☺ Make a fruit smoothie by blending juice and fruit together, or a yoghurt or milk drink by mixing yoghurt or semi-skimmed milk with pureed fruit.
- ☺ Make a lower-fat salad dressing by mixing it with some low-fat yoghurt or semi skimmed milk.
- ☺ You can use leftovers; for example, rice and curry, vegetable pizza or pasta and sauce.
- ☺ Make a salad using rice, potato or pasta from the night before, mixed with vegetables, beans and so on.

# Duncombe Primary School Healthier Packed Lunches for Children

## What you need to know

Eating well is important. Children need to eat well as it will give them energy and nutrients to grow and develop, be healthy and active.

A healthy, enjoyable lunch gives children the energy they need to learn and play at school.

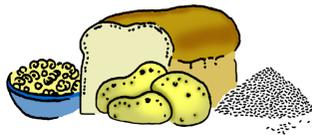

This leaflet provides information on how to pack a healthier lunch. Please support the school's food policy by following these guidelines.

# What is a healthy packed lunch?

## Starchy Foods

Base each meal on a starchy food, such as bread, potato, rice, pasta, yam. Starchy foods give energy, fibre, vitamins and minerals.

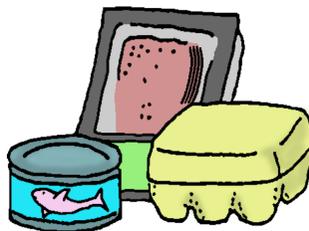

- 😊 Bread, try different types, such as sliced bread, pitta bread, chapattis or bread rolls.
- 😊 Other starchy foods, such as pasta, potato, rice or noodles.
- ✓ Whole grain varieties are best for fibre, which is vital for a healthy digestive system.

## Meat and Alternatives

Add some protein, for example meat, fish, eggs, beans or pulses. Protein foods build muscles and provide minerals.

- 😊 Lean meats, such as chicken, turkey or ham.
- 😊 Cheese, such as edam, cheddar or soft cheese.
- 😊 Egg, such as boiled or quiche.
- 😊 Meat alternatives, such as quorn or tofu.
- 😊 Dishes containing pulses, beans or meat, for example dahl, houmous or bean salad.
- ⚠ Meat products such as sausage rolls, sausages and chipolatas, pies and pastries, fried foods should not be included more than once a fortnight.
- ⚠ Use butter, margarine, mayonnaise or salad dressings sparingly, because these can be high in fat, or use lower fat alternatives.
- ✗ The school has a no nuts policy as some children are allergic to these.

## Drinks

Drinks, especially water, help children to concentrate and feel well. Water is freely available in school.

- ⚠ Another drink can be included in the lunchbox, however please do not include fizzy drinks, juice drinks or sugary drinks.
- 😊 Replace sugary or fizzy drinks with

## Snacks and Confectionery

Snack foods may be included occasionally but aim to make healthier choices. Snack foods tend to be high in fat, sugar and salt. Foods high in fat can cause excessive weight and may lead to heart disease. High sugar foods are high in calories and bad for teeth. High salt foods may increase blood pressure, which can lead to heart disease and some cancers.

A healthy packed lunch is a balanced meal providing a variety of nutrients, to be found in four food groups:

## Milk and Dairy Foods

Include a dairy product or dairy alternative, such as yoghurt, fromage frais, tzatziki, semi-skimmed or skimmed milk, home-made milkshake or lassi drink. These foods provide calcium necessary for strong bones and teeth, as well as providing protein and vitamins.

- ✓ Lower fat varieties are healthier.

## Fruit and Vegetables

Don't forget to include fruit and vegetables. You can use fresh, frozen, tinned or dried. Fruit and vegetables are full of vitamins, minerals and fibre necessary for the body to function properly and to keep you strong and healthy.

- 😊 Add tomato, lettuce, cucumber or sweetcorn to a sandwich.
- 😊 A vegetable dish, such as vegetable curry, salad or roast vegetables.
- 😊 Fresh fruit, such as apple, banana or satsumas.
- 😊 Dried fruit, such as raisins, apricots or dates.
- 😊 Fruit salad (fresh or tinned in juice) or vegetable salad.
- 😊 Finger foods, such as cherry tomatoes, grapes or cucumber sticks. Good with a dip, such as houmous or tzatziki.
- ✓ Use fresh fruit and vegetables, which are in season to help the environment and enjoy variety!
- ✓ All packed lunches should contain at least one item of fruit, vegetable or salad.

## For a healthier snack:

- 😊 Replace sweets and chocolate with dried fruit, a small bunch of grapes or fruit salad.
- 😊 Replace cakes and pastries with fruit bread, crumpets, teacake or fruit bagel.
- 😊 Replace salted savoury snacks with rice cakes, breadsticks, plain popcorn or cheese and crackers.
- ✗ Packed lunches should not contain chocolate, sweets or crisp-like products.
- ✗ Please do not include chocolate spread filling for sandwiches.
