

Objectives of Sport Fund Spending

Funding Priorities

To develop a sustainable curriculum which meets the needs of all the children at Duncombe, providing a variety of different sports and opportunities for children to keep fit and healthy and improve their skills. We are prioritising intra/inter school sport as well as opportunities for children to engage in sport and clubs before and after school. Our sustainable approach therefore is to train staff to deliver these activities and provide them with the resources and expertise they need in accordance with our school action plan to promote physical and emotional well-being.

Duncombe's Sport Grant 2016/17

£ 9,800.00	Total amount of Sport Grant received
£ 11,339.00	Total Sport Grant Expenditure

£ 6,000.00	Proportion of TA timetable (30% of TA cost to school)
£ 745.00	Resources to ensure all playtime and lunchtime staff run an activity so children are active during these times.
£ 787.00	Resources to run a sports day
£ 1,807.00	Fitness, Football club, Pilates (TA overtime & Tutor cost)
£11,339.00	TOTAL

Sustainability of improvements from Sport Grant

Recent pupil surveys showed that there has been a marked increase in "actual activity time" as prioritised during the previous funding statement. To ensure that more children are engaged in sport we will therefore be introducing additional clubs (as listed above) and measures to promote sport during play and lunch times (as outlined above). These will be monitored and assessed by observations and Learning Walks, as well as assessing the impact on children by conducting whole school and targeted surveys in which they will have an opportunity to share their views. Staff teaching practice will be improved and informed by working collaboratively with our P.E. SSCO and our Futurezone P.E. expert.
