

Year 1 Weekly update: 13th March 2018

Messages:

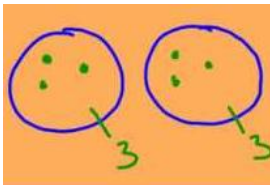

On Tuesday, Francis Drake will visit Elthorne Park to take part in their Forest School project.

On **Friday 16th March**, Serach will be holding a coffee morning, 'Helping your Year 1 or Year 2 child with maths'.

Maths:

This week, we will revisit division. The children will practise finding the answer to division questions by sharing.

$$6 \div 2 = 3$$

English:

The children will begin studying *Handa's Surprise*. The focus for this week will be using interesting adjectives to describe the animals. The children will write questions about the story using the correct punctuation. Towards the end of the week, they will use talk for writing to retell the story.

Topic and science:

We will continue to learn about our new topic, *Healthy Eating*. This week, the children will learn about the importance of a balanced diet. They will look at the Eatwell plate and talk about the traffic light system for labelling food.

In science this week, the children will talk about the most appropriate uses for different materials. They will choose certain materials (to build a house, cup, window and jumper) and explain the decisions.
