

Messages:

We hope you are all enjoying the Summer weather! It was great to see many of you at Sports Day last week.

Maths:

In maths we will be continuing our topic: geometry.

This week we will be looking at shapes. We will be making posters for 2D shapes and straw models for 3D shapes.

English:

In English, we will be writing our reports.

We will focus on the things we have enjoyed this year and then think ahead to what we need to improve and focus on for next year.

Science:

In science, we will continue to learn about animals including humans.

This week we will be looking at skeletons.

Topic:

We are continuing to use our community as inspiration to make pop-up cards.

This week we will be looking at the homes in our community.

Homework:

Please select a task from the project homework. Please also practise spelling. Perfect paragraphs have been removed but children will be asked to use the spelling words in a sentence.

The maths homework is now on Mathletics – please complete three activities. For extra challenge, try some Problem Solving as well. If your child needs access to a computer, they can come to one of the Mathletics sessions we offer in school on a Friday lunchtime.

We have given everyone an Accelerated Reader band – you can go to the library every day after school and find new and exciting books at your child's reading level.
