

Messages:

Thank you to everyone who came our Enabling Enterprise Food Fair!
It was so much fun and we really enjoyed working on our project.

Maths:

In maths we are learning about different ways to present data. This includes bar charts and tallies.
This week we are looking at different intervals and looking at data sets where we have to count in 5's and 10's.

English:

This week we are reading a trickster story called Monkey.

We will be retelling it.
Our talk homework asks this question: Do you just need to know things to be clever?
What do you think?

Science:

We will be starting our topic PLANTS.

We will be growing things and exploring the features of plants and what they need to survive.

Topic:

We continue our topic by moving into the bronze Age. This week will be writing a menu from the Bronze Age and comparing it to our modern food.

Homework:

Please select a task from the project homework. Please also practise spelling. Perfect paragraphs have been removed but children will be asked to use the spelling words in a sentence.

The maths homework is now on Mathletics – please complete three activities. For extra challenge, try some Problem Solving as well. If your child needs access to a computer, they can come to one of the Mathletics sessions we offer in school on a Friday lunchtime.

We have given everyone an Accelerated Reader band – you can go to the library every day after school and find new and exciting books at your child's reading level.
